

# KUT IR and the faculty evaluation system

Takiko Kitamura and Kanako Hamada  
Kochi University of Technology

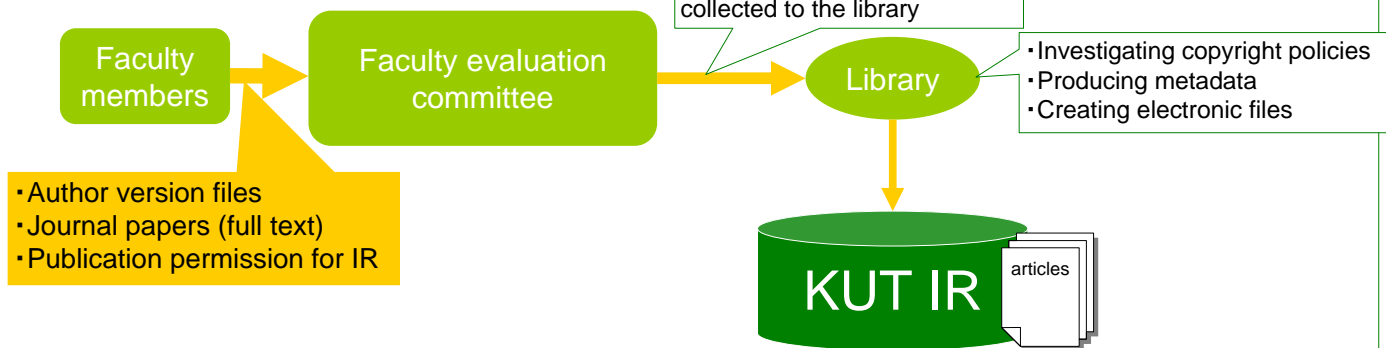

Publications in scholarly journals and any other forms of work are taken as subjects of KUT faculty evaluation, which is linked to its promotion system. Since KUT requires its faculty members to submit journal papers (full text) or duplicates of work, all those works have been accumulated in the institution. In the 2006 academic year, with the help of the faculty evaluation committee, the KUT library asked the faculty members for submission of author version files and publication permission for IR.

## Process to the publication in KUT IR

2003~2005

2006

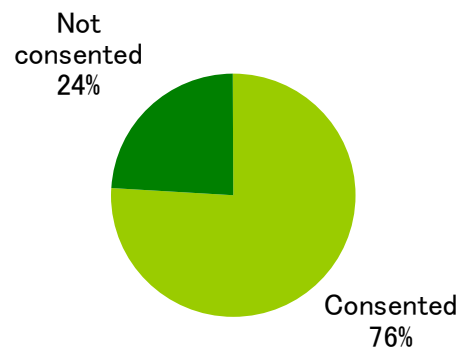

## Status in 2006

Percentage of submitter of the articles

Percentage of articles consented to publication in KUT IR (after passing the examination by the faculty evaluation committee)

Copyright policies of articles consented to publication in KUT IR

## Plans for the next year

- The library continues to accumulate articles for the repository, asking faculty members via the faculty evaluation committee.
- Articles which are not permitted to be published in the repository are planned to be stored in the faculty members' database (which is now being constructed).
